DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Schmidt on 24 May 2004.

The application has been amended as follows:

- On page 10 line 1 ([0028]), the phrase "Referring now to Figure 9A" has been replaced with --Referring now to Figure 9D--.
- On line 8 of claim 1, the phrase "said table is releasable held" has been replaced with --said table is releasably held--.
- On lines 10-11, the phrase "biased toward said detent plate, said detent spring engaging said at least one detent slot to releasable to hold" has been replaced with --biased toward a detent plate, said detent spring engaging at least one detent slot to releasably hold--

Allowable Subject Matter

2. Claims 1-4 and 6-16 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-4 and 6-16 are allowable because of the apparatus with a detent system that moves independently from a locking mechanism as set forth in the claims. None of the prior art

Art Unit: 3724

cited discloses an apparatus that incorporates the use of a detent system defining a first pivot axis and a locking mechanism defining a second pivot axis thereby allowing the detent system to pivot independently from the locking mechanism and vice versa.

Therefore, in view of what has been stated above, the claims are allowable over the art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
